JAMIITEK · DAR ES SALAAM

Company Profile.

Websites, management systems, mobile apps and WhatsApp automation — made in Tanzania for organisations that want to grow.

www.jamiitek.com +255 750 910 158 info@jamiitek.com

Welcome to JamiiTek.

JamiiTek is a Tanzanian digital agency. We design and build websites, management systems, mobile apps and WhatsApp automation for schools, NGOs, tour operators, lenders and growing businesses — in English and Kiswahili, built for mobile phones and mobile money.

We take on a small number of clients at a time, so each one gets a finished, working product and a team that stays on after launch for hosting, updates and support.

Mission — to give every Tanzanian organisation digital tools that win customers, save time and earn trust.

Vision — to be East Africa's most trusted digital partner.

05 **Our Projects** — Real work, live today — 07

06 **Our Team** — The people behind the work — 09

07 **Investment, Support & Contact** — Prices, terms, after-launch care and how to reach us — 10

WHY JAMIITEK

Why choose JamiiTek?

60+ PROJECTS DELIVERED

Bilingual

Every website and system is built in English and Kiswahili, so customers read about your services in the language they are most comfortable with.

Built for Tanzania

WhatsApp buttons, click-to-call and mobile-money payments are built in from day one — the way your customers already ask and buy.

One fixed price

You receive one clear price and one delivery date before any work starts. No hidden extras appearing along the way.

Weekly progress

Every week you see the real product taking shape and give feedback, so the final result is exactly what you asked for.

You own it

Your domain is registered in your name, the content is yours, and a simple dashboard lets your team update pages anytime.

We stay

After launch we look after hosting, send renewal reminders and invoices, issue receipts and stay on WhatsApp for support.

WHAT WE DO

Service Offering.

Everything your organisation needs to be found, trusted and chosen online.

Websites & Web Apps

Company websites to complete web platforms — fast, secure and built to be found on Google.

- Mobile-first design
- English & Kiswahili
- Dashboard to update pages

Management Systems

School, loan, stock and booking systems built around how your organisation already works.

- Secure logins & roles
- Reports & dashboards
- Invoices & mobile money

WhatsApp Bots & AI

JamiiBot answers your customers 24 hours a day, in Swahili and English.

- Prices & FAQs
- Orders & bookings
- Hands over to you

Mobile Apps

Android and iOS apps connected to your website or system.

- One app, two stores
- Push notifications
- Linked to your system

USSD Services

Menus that work on any phone, with no smartphone or internet needed.

- Every network
- Registration & payments
- Linked to reports

E-Commerce

Online shops that sell while you sleep, with payments customers already use.

- Catalogue & prices
- Orders to WhatsApp
- Mobile money

Digital Marketing & SEO

Being online is the start — being found is what brings customers.

- Google Business Profile
- Google Ads
- Search optimisation

How we work.

Four clear steps from the first conversation to a live product — and beyond.

01

We listen DAY 1

We sit with you to understand your customers, your daily work and your goals. This first conversation costs nothing.

02

One price, one date DAY 2

Within one business day you receive a clear plan, a fixed price and a delivery date — agreed before any work begins.

03

We build — you watch it grow WEEKS 1–6

You see real progress every week and give feedback as we go, so the final product is exactly what you need.

04

Launch & stay ONGOING

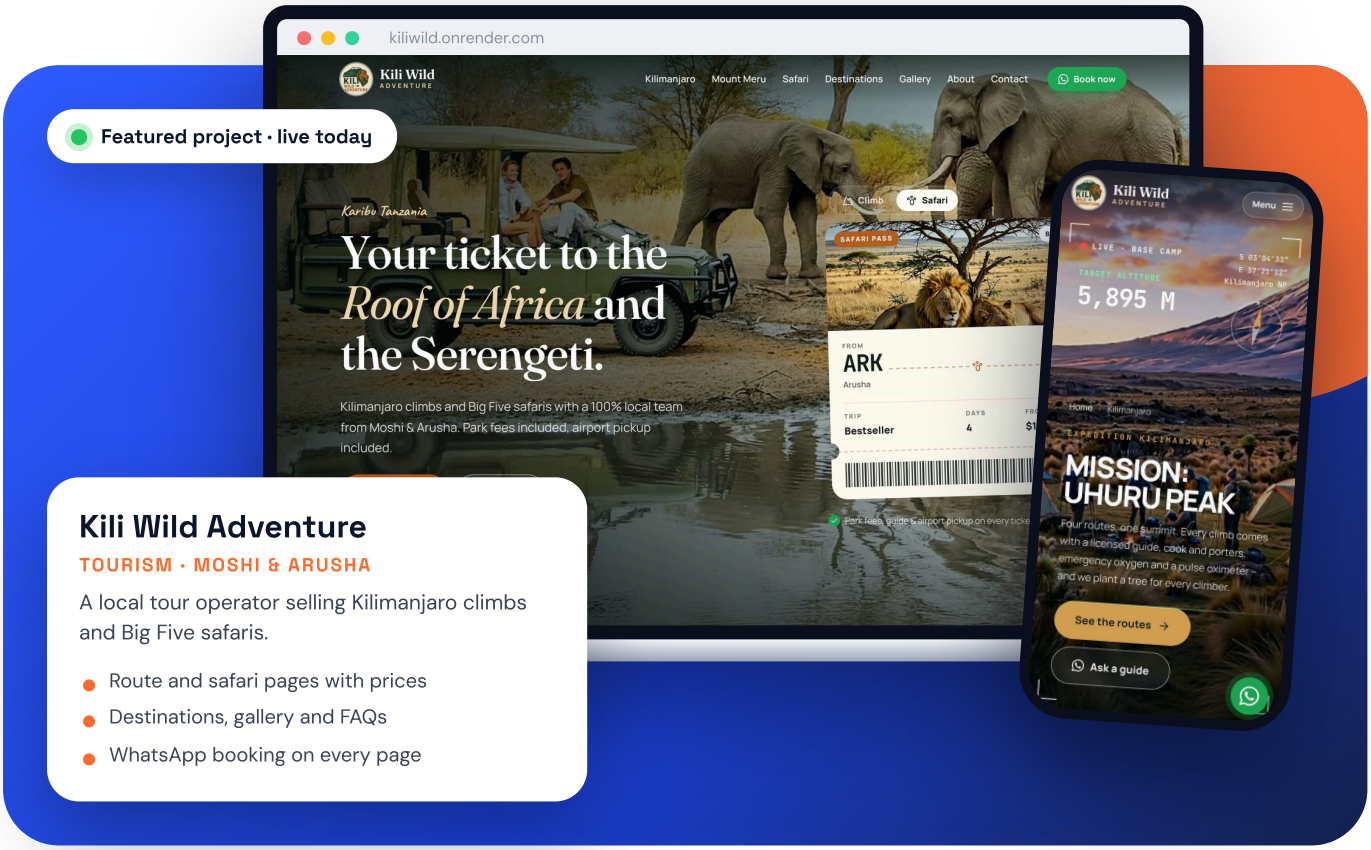

We go live, hand over the keys and stay on for hosting, updates and support.

SECTORS WE SERVE

NGOs | Tourism | Education | Finance | Retail | Agriculture | Industry

Our Projects.

Real websites and systems, built by JamiiTek and running today.

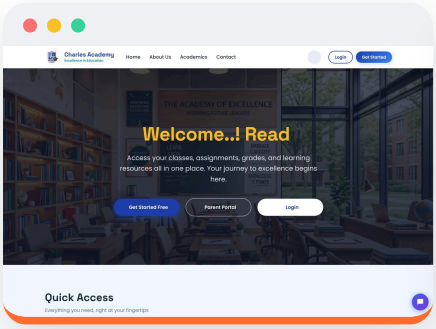

Kili Wild Adventure

TOURISM · MOSHI & ARUSHA

A local tour operator selling Kilimanjaro climbs and Big Five safaris.

- Route and safari pages with prices
- Destinations, gallery and FAQs
- WhatsApp booking on every page

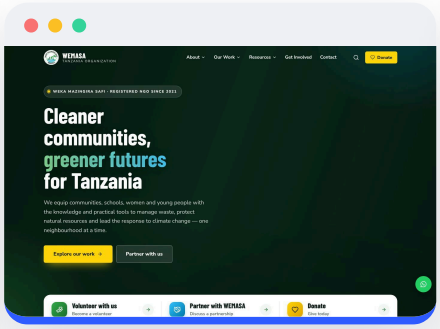

EDUCATION

Charles Academy

A school website and learning portal in one place.

- Student and parent logins
- Timetable, grades and resources
- Courses, events and FAQs

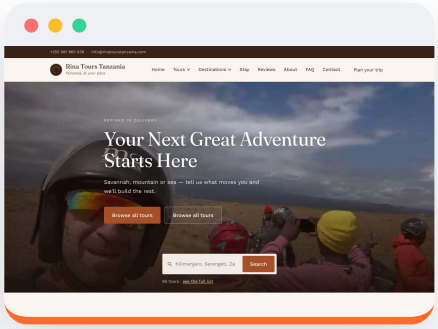

NGO

WEMASA Tanzania

Weka Mazingira Safi — a registered environmental NGO.

- Projects, team, partners and SDG pages
- Donate, volunteer and partner actions
- Dashboard to update every page

TOURISM

Rina Tours Tanzania

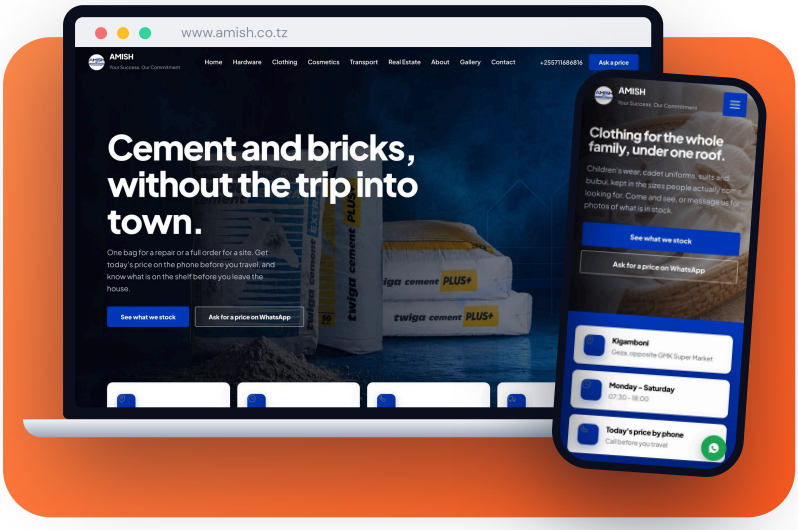

Safaris, trekking, beach and cultural tours.

- 60+ tours in seven categories
- Prices and duration on every tour
- Route map and trip-planning form

Continued on the next page — AMISH Company, Tryvis Investments and more →

More of our work.

From trading groups to industrial suppliers — websites that bring in real enquiries.

TRADING GROUP · KIGAMBONI

AMISH Company

One website for a growing family business — two divisions trading today and three in preparation.

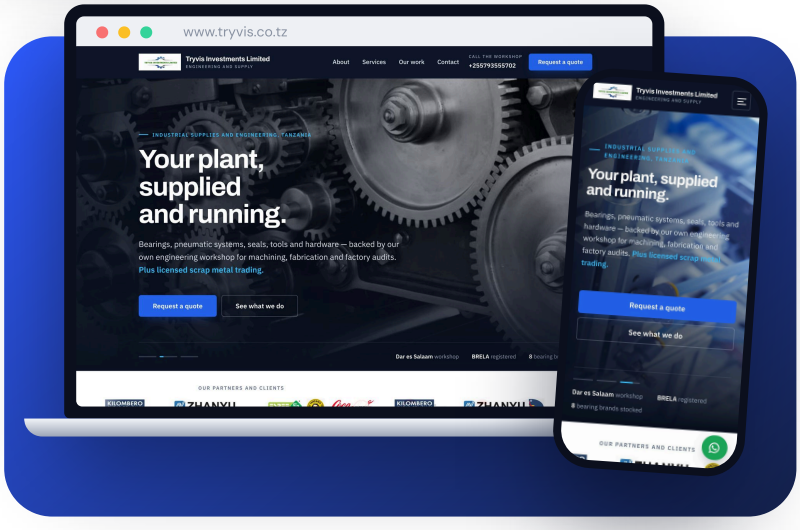

- Hardware, clothing, cosmetics, transport and real estate
- Product catalogues with photos and prices
- "Ask for a price" straight to WhatsApp
- Gallery, location and opening hours

INDUSTRIAL SUPPLY · DAR ES SALAAM

Tryvis Investments

Industrial supplies and engineering, presented clearly for factories and plants.

- Bearings, pneumatics, seals, tools and hardware
- Engineering workshop and factory audits
- Workshop gallery and partner logos
- Online quote requests and WhatsApp

Hosting

Fast, secure hosting with SSL and backups. Template websites: TZS 15,000/month. Other projects are quoted with the build, with renewal reminders sent well before expiry.

Payment

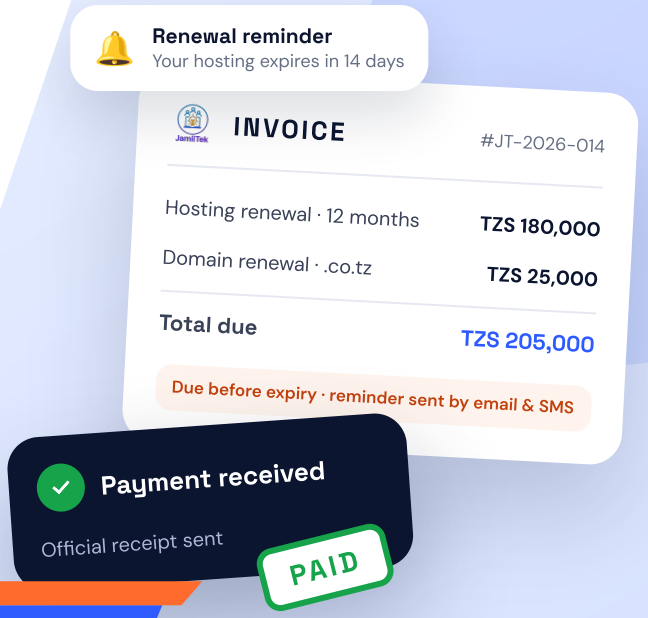

A deposit to begin, the balance on delivery. Flexible plans available.

Quotations

Free, fixed and with a delivery date — before any work starts.

AFTER LAUNCH

Support after your website goes live.

We don't hand over and disappear.

Here is what we keep doing for you.

How your yearly renewal works

1. **We remind you**
   Before your hosting or domain expires, you get a reminder by email and SMS.
2. **You get an invoice**
   A clear invoice shows exactly what to pay and by which date.
3. **You pay and upload proof**
   Pay, then upload a screenshot or receipt of your payment online.
4. **You receive your receipt**
   We confirm the payment and send you an official, signed receipt.

Your website stays online
Secure hosting with SSL and regular backups.

Help on WhatsApp
Questions and fixes handled by the team that built your project.

Changes when you need them
New pages, prices, photos or features as you grow.

Training for your team
We show your staff how to update the website themselves.

Every payment documented
A proper invoice and receipt for every payment, for your records.

Your domain, in your name
We register and renew it so you never lose it.
